

LA Area Downey April 19, 2009 Workers Memorial Day Events

Stand Up For Injured Workers And Workers Killed On The Job

Downey Kaiser Hospital complex has been built on one of the most toxic sites in the Los Angeles area and hundreds of workers have been sickened as a result of the failure of the developer Stuart Lichter to properly clean up the site and also the failure of Federal and state regulatory agencies to properly regulate health and safety protection along with enforcing fraud violations because of workers comp cost shifting by the developer and companies.

Join with injured workers from the Downey site and throughout Southern California who will speak out at a press conference on Sunday April 19, 2009 at the Kaiser Downey Hospital which is located at 9449 E Imperial Hwy Downey, CA 90242. Following the press conference in front of the hospital there will be a speak-out of injured workers from the Downey site and other Los Angeles injured workers and their families.

Press Conference

Time: April 19, 3:00 PM

Location: Downey Kaiser Hospital - 9449 E. Imperial Highway, Downey California 90242

Injured Workers Speak-Out
